Experience

Intern at Agsure Innovations Pvt. Ltd.

Aug 2024 – Sep 2024

Domain: Frontend Web Developer | React Developer

- Designed and implemented the UI/UX for an Admin Dashboard using Figma, focusing on seamless user interactions.
- Built entire dashboard from the ground up, integrating API data to manage real-time user information effectively.
- Developed secure registration and login pages using HTTP method, enhancing user authentication and data protection.
- Utilized React Hooks to optimize state management, leading to a reduction in memory usage and faster reusable component (in JSX) rendering and maintain the documentation for the project on Confluence.

Project Work

Travel App (View : [Click](#))

May 2024

Domain: Frontend Mobile Application

- Engineered a fully responsive mobile application in React Native, ensuring more cross-device compatibility across smartphones and tablets.
- Applied state management with React Hooks, resulting in decrease the load time and smoother in-app transitions.
- Integrated API-based real-time data updates, increasing data freshness and enhancing the overall user experience.
- Completed the work in 7 days using a structured SDLC, improving **delivery speed by 30%** compared to typical timelines.

Portfolio (View : [Click](#))

Dec 2023

Domain: Frontend web Application | Languages: JavaScript

- Created a web application using HTML5, CSS3, and React.js, improving **page load speeds by 25%** through code optimization and lazy loading.
- Efficiently managed state across 10+ interactive components using React Hooks, enhance responsiveness and reducing server calls.
- Designed engaging sections like About Us, Contact Us, and Services, boosting user engagement through clear, accessible navigation.
- Adopted a three-phase SDLC approach, delivering the work 2 days ahead of the 3-week deadline.

A Chatt App UI/UX (View Design: [Click](#))

Oct 2023

Domain: UI/UX | Figma

- Crafted a modern, user-friendly chat app interface in Figma, with a design **rated 8/10** in user feedback for intuitiveness and aesthetics.
- Developed key screens, including notifications display and a task management system, **resulting in a 40% faster** task execution through the search and voice input feature.
- Optimized the chat interface with real-time previews, enhance user interactions.

Achievements

Star Rating in SQL on Hacker Rank

Jan 2024

2nd Position in UI/UX challenge

Nov 2023

Rating in C++ on Hacker Rank

Oct 2023

Sports: National in KHO-KHO

Sept 2020

Education

Lovely Professional University, Phagwara, IN

Oct 2020 – May 2024

B.Tech. in Computer Science Engineering

CGPA 7.60

KVJN, Sitamarhi, Bihar, IN

Jun 2017 – Mar 2019

Higher Secondary

% 70.60

KVJN, Sitamarhi, Bihar, IN

Apr 2016 – Mar 2017

Secondary

CGPA 9.80

Skills

Languages: C++, JavaScript, Python, SQL

Technologies: HTML, CSS, Tailwind CSS, React.js, Node.js, Next.js, RESTful API, MongoDB, AWS, React Native, MySQL

Tools: Git/GitHub, Jira, MS Word, Excel, PPT, Redux(basic), Figma, Framer, CI/CD (Jenkins), Docker
